**Re:** Core 40 End-of-Course Assessments:  
*Online Testing Disruption*  
*Online Testing Window Extension*

Earlier this week, the Core 40 End-of-Course Assessment online testing site experienced technical issues which caused some students difficulties during test taking. Our online testing vendor has resolved these issues and has assured us that testing will continue smoothly for the remainder of the administration.

***Please note that the online testing window has been extended through May 29 - 31<sup>st</sup>.***

We sincerely apologize for the inconvenience caused to those corporations and schools affected by this disruption. Please know that the IDOE understands and shares your frustration. We, along with our online testing vendor, will continue to monitor the online testing system closely throughout the test administration and work as quickly as possible to correct any issues.

If you need assistance during the online Core 40 End-of-Course Assessment program, please do not hesitate to contact:
